Description of M-Machine Part Numbers

Our panel part numbers contain an identification code relating to the vehicle that the component will fit. Below is a guide to help you determine the correct part for your vehicle.

M-Machine part numbers use eight digits to identify each panel, these are organised as thus:

As Mini variants are based on the original Saloon design, any panel that will fit all models will begin with the Saloon (**1x.xx.xx.xx**) part number.

Other variants up to (**4x.xx.xx.xx**) will mostly fit the model designated number or the next models above (only up to Pickup **4x.xx.xx.xx**).

Model numbers from **5x.xx.xx.xx** are model specific with exception of the shared or common parts to all models (**1x.xx.xx.xx**).

INDEX

29/04/2024

120
REAR PANEL
Rear doors, Tailgate, Cab & Bulkhead

170
FRONT PANEL
Number Plate Hanger, Stiffener, Adaptors

320
FLOOR PANELS
Floor Repair Panels, Half Floors, Tunnels
